### VICTORY IN SIGHT IN "Y" CAMPAIGN; TO CONTINUE FIGHT FOR GOAL OF 600

ALTHOUGH RESULTS SO FAR  
HAVE BEEN DISAPPOINTING,  
DRIVE IS TO BE STEAMED UP.

#### Dr. Thompson Heard

SECRETARY HENLEY'S TEAMS  
TURN IN MORE THAN SIXTY  
MEMBERS. BASSHAM GETS  
FORTY-SEVEN.

Victory is still in sight for the local Y. M. C. A. drive; but it is a deferred victory. This is the consensus of opinion expressed by the 25 devoted workers who met at the association building last night.

Dr. H. R. Thompson, former general secretary, who was scheduled to speak to an overflow meeting last night and this to say: "I cannot but feel hurt that no more interest is manifested. Twenty-five persons present at a meeting so widely advertised, indicates that there is something wrong somewhere. The next question is: To find the nigger in the woodpile, as we say up in North Carolina."

Two Considerations Mentioned by Dr. Thompson

"There are two prime considerations for the shop men and the people of the cities to keep in mind, it seems to me. First, the three or four hundred of our former members who have gone into war work and into the trenches are looking to be maintained in the 'Y' and hand it back to them in as good or better shape than ever when the war is over. As older persons and women are being called into larger activities now, so we will have to look to the older people, who do not use the privileges of the association, to tide us over. And we will have to look to the good women, who have means, to provide the secretary with membership money to be used by those who cannot afford to pay for the privileges."

"Second, if we neglect the Y at this time it will be the old story of 'prizing the singer after the sweet voiced bird has flown.' The thousands of clean men turned out by the baths here during last year; the 'sleeps' furnished nearly as many more; the Sunday School boy's swimming pool; the dining room and large kitchen, always open to church societies and other brotherhoods; the Red Cross rooms; the library; the well lighted conveniences for the union church services; the community sings and all, to show that the association and its grounds constitutes the centre for this whole community." Now the question is, "Will myself and other association workers have to recommend the closing of the Y. M. C. A. or not?"

Emphatically NO Was the Answer  
It was decided that the campaign drive for 600 members should be continued until the necessary six hundred were "written."

It was pointed out that the \$5.00 fee per year was entirely too low for any one to shy at the idea of taking out a membership. J. R. Collier expressed the sentiment of the Brotherhood when he said in the shop vernacular: "It will be a black eye to the unions if we do not go forward and support the association at this time."

Rev. J. C. Persinger pledged that he would be one who would "carry on" until victory was achieved; and said that he would publicly call the attention of his congregation to the necessity of maintaining the association.

Dr. W. P. Wilks, although not present, expressed a similar sentiment in speaking to Dr. Thompson.

John Patterson, chairman of the board of management of the association, proved to be full of "fight" and declared that the campaign would be successful.

He called attention to the splendid work done by Secretary Henley's committee, which showed it had enrolled 63 new members. Mr. Henley did not say so, but he is thinking and planning ultimate victory for the city teams.

Bassham, Edwards and Collier did well. Counting the city team's work, the total membership given in at last night's meeting was 206. Thus the shops have written about 140 up to

#### Hartselle Officers Arresting Slackers

Hartselle, Ala., July 13—(Special)—The adjutant general has certified to a healthy bunch of slackers and deserters for Morgan county, the list running to about eighty to date. Perchey of the police force have delivered into Uncle Sam's custody six slackers and two deserters. ### VON HERTLING'S PEACE PLEA HAS FAILED TO CHANGE U. S. AIMS

(International News Service.)  
London, July 13.—Germany does not intend to keep Belgium in any form, Chancellor Von Hertling declared in his speech, according to advices today from Rotterdam.

"The occupation and possession of Belgium forms the only means we have as a pawn in future negotiations," the German chancellor is quoted as saying. "We do not intend to keep Belgium in any form whatever. After the war, we want Belgium restored as a self-dependent state, subject to nobody. We want them to live with us in good, friendly relations."

"We are fighting a war of defense," the chancellor was also quoted as saying. "Every tendency of world domination was remote from our minds. Therefore, our peace aims are the inviolability of our territory and open air for the expansion of our people, especially in the economic domain. Naturally, we also want security against future difficult conditions."

The chancellor concluded his speech with an appeal to his people "to bear the heavy times of war until an honorable end is attained."

Washington, July 13—Nothing that the imperial chancellor, Von Hertling of Germany, can say will change the war aims or peace terms already laid down by America and her allies.

This was emphatically stated today in government circles, following the chancellor's speech in the Reichstag hinting that the "no annexation" policy has won. His address was generally accepted here as a confession of Germany's weakness.

The chancellor's statement that "president Wilson wants war until we are destroyed," was considered here as the cry of a beaten nation.

### BOOSTER TRIP CALLED OFF ON ACCOUNT OF THE WAR

The second annual trip of the Albany boosters, planned on a more ambitious scale than the one of last year, has been called off. Patriotic motives prompted the boosters to forego their trade excursion plans, as they felt that the money thus expended should be used in helping to win the war.

### JULY CLEARANCE SALES AFFORD SHOPPERS GREAT OPPORTUNITY

Of great commercial importance to the Twin Cities and the surrounding trade territory are the announcements made this week through the Daily of big July clearance sales being put on by Olshine's Department Store, Decatur; Buttrey's Department Store, Decatur; Emporium, Ory-Cohen and S. E. Ory, Albany. The Speake & Moebes dissolution sale also continues.

At these sales, great quantities of merchandise are being offered at bargain prices, in order that the merchants may clear out all their present stocks before leaving for the east to replenish their shelves. The prices quoted are less than those that must be paid for new goods when bought at wholesale, and the stocks are so comprehensive as to offer the customer a wide variety from which to make selections.

The public is becoming more and more appreciative of the live merchants, those who advertise, and who keep their stocks moving and consequently always fresh and up-to-date.

### GEN. FOCH CONTINUING HIS BITING THRUSTS INTO GERMAN LINES

GERMANS ARE ALLOWED NO REST  
BY THE ALERT ALLIED  
FORCES

#### VON HINDENBURG IS REPORTED DEAD

Italian Forces Are Steadily Overrunning  
Albania. Fighting in Russia

Following their brilliant victories on the Picardy front on Friday, when the village of Castel and a fortified farm were captured from the Germans, the French drove home a new thrust between Montdidier and the Oise last night, carrying their positions forward a distance of 500 yards.

The attack, although of minor character, is in line with Gen. Foch's policy of giving the Germans no rest. At widely separated points the French are continuing their biting thrusts and are eating deeper and deeper into the German front.

Strong British raiding parties are co-operating with the French in this new tactical scheme.

Italian and French forces on the western wing of the Balkan front are steadily overrunning all of the southern part of Albania and are creeping closer daily.

(International News Service.)  
Paris, July 13.—French advance positions have been carried forward a distance of 500 yards near Porte farm in the sector of the Montdidier-Oise rivers.

### HUNS MARVEL AT AMERICA'S FEAT IN MOVING TROOPS

(International News Service.)  
Geneva, July 13.—The great achievement of America in putting 1,000,000 soldiers in France and Germany's diplomatic failure in Russia, are the chief topics of conversation in Germany, according to a traveler who arrived here today.

Strikes are constant occurrences and frequently the police sympathize with the strikers. Only the rich are able to buy sufficient food.

The informant added that "Germany cannot possibly endure another winter of warfare."

### PLAYS TALKING MACHINE TO U. S. CREW WHILE CREW DEALS DEATH TO HUNS

An Atlantic Port, July 13—A jolly little Yankee charge on the Huns, accompanied by popular airs played on a talking machine, had the desired effect on the American front in France recently until the machine and its operator were gassed.

The story of how a death-fearing Yankee gun crew sent round after round of cold steel into the Hun ranks to the tune of "Over There" and other popular airs was told here on the arrival of Lieutenant Colonel Thomas Stanyan, of the Salvation Army, on his return from France, where he was sent on a special mission by Commander Evangeline Booth.

"Commandant Hughes, a Salvation Army worker at Akron, O., was in a dugout playing a talking machine to the six men of a gun crew," said Stanyan, "when the order came to shell the German line."

"Out of the dugout went the men pell-mell, shouting back to Hughes to bring along the talking machine. Hughes quickly complied with the request, finding a nearby stump, on which he placed the machine and cut loose with 'If He Can Fight Like He Can Love.'"

One of the gunners said later that when the machine reached the line "Then It's Goodbye, Germany," they gave the Huns an extra charge for good measure. He also admitted it was "pretty hard" to hear the music above the din of battle.

"An unfeeling gas bomb broke up the programme. The machine suddenly stopped. Perhaps it was gassed. Hughes was, at any rate, and is now in a hospital."

Stanyan told of the two McAllister girls, who have endeared themselves to every Yankee through doughnuts and hot coffee, sending three big pies to the ranking American generals then in that vicinity. The generals reciprocated by sending back a German helmet and gas mask. The McAllister girls are natives of Portland, Me.

He also described a New England quartette which he found singing in a dugout on the Montdidier front, who tried to lift their voices to the highest possible pitch to make themselves heard above the roar of artillery and a flock of aeroplanes.

### THREE ARMY CORPS OF AMERICANS ARE ON FIGHTING FRONT

Washington, July 13—America's fighting forces in France today are numerous enough that they have been organized into three complete army corps. These corps comprise from 225,000 to 250,000 men each, fighting men and not non-combatants.

This information was made public today by Gen. Peyton C. March, chief of staff. Gen. March stated, in addition, that the general troop movement overseas is proceeding without any let-up anywhere. The average movement is unchanged.

The three army corps that have been formed are under the commands of major generals. Maj. Gen. Hunter Liggett will command the first division. Maj. Gen. Chas. F. Monahan commands units from 41 states and known as the "Rainbow Division." Maj. Gen. William Burnham is commanding the force made up of selective men from Alabama, Georgia and Tennessee.

### 104 NAMES APPEAR ON CASUALTY LISTS

**THOMAS E. KILBY**  
Candidate for Governor

**HOW HE STANDS AT HOME**  
The following resolutions were unanimously adopted by an audience that packed the Noble Theatre in Anniston when Kilby opened his speaking campaign on Monday, July 1:

Be is Resolved by a mass meeting of the citizens of Calhoun County, Alabama, that  
Whereas, the Hon. Thomas E. Kilby, of Calhoun County, Alabama, is a candidate for the office of Governor of the State of Alabama, and  
Whereas, we, his fellow-citizens, neighbors and friends, know of his sterling character, his pre-eminent abilities and his courageous and unswerving devotion to duty, and  
Whereas we have seen him start life without wealth, influence or backing, and by virtue of intellect, ability and character, rise to the position of one of Alabama's strongest, ablest and most distinguished sons, and  
Whereas we have seen him as mayor of Anniston, as State Senator from this district, and as Lieutenant-Governor of the State, give most abundant evidence of possessing all the qualifications of a great chief executive:  
Now, therefore, be it Resolved that we unanimously commend his candidacy to the voters of the State of Alabama, and give them our assurance that Calhoun county offers the State of Alabama a candidate for Governor who possesses the greatness of heart, greatness of mind, and greatness of character essential in a great chief executive of a great state.

**Scribe Fears Death From Fright on Becoming Well Versed With Dangers in Near-War Zone**

New York July 13.—A member of the International News Service Staff, who recently went to London, in writing back his personal experiences, says, in part:  
"Crossing the submarine zone and being bombed by the Hun should furnish thrills, else why all this fuss by one's family and friends about the danger of departing for the near-war zone?  
"I should be able to write you a ten-thirty thriller, full of emotion and sob stuff; but it can't be done. There isn't much scare in crossing the Atlantic in a convoy entirely surrounded by a breastwork of very sturdy looking ships.  
"As for the air party which the barbarians put on three days after arrival, there was an air of suppressed excitement on the part of some of the English members of the staff, but three-day infants aren't frightened, for the simple reason that they don't know the meaning of the word.  
"The maroons sounded (maroons are noise bombs). It might have been thunder, or a raid itself, for all I knew.  
"The Huns have crossed the coast, said some one, reaching for his hat.  
"Where are you going?  
"Over to the Morning Telegraph.  
"Then I learned that the Morning Telegraph building is of about the consistency of Grant's Tomb, or more so, and that the basement is a fairly well protected shelter.  
"In my ignorance I suggested that I understood that it took twenty-five minutes for the raiders to reach London after crossing the coast. Perhaps so, but I now know that a veteran, who makes a practice of taking shelter takes it at the earliest possible moment.  
"Already I had heard stories of shells crashing through to basements and killing dozens who thought they were safe. It seemed a matter of chance entirely; might as well take the chance on the top as well as the bottom floor. It seems, however, that there is shrapnel to be considered, and shrapnel can't well get you in a basement.  
"So to the basement we went for two or three hours, while incessant booming was audible, the defense guns throwing up a barrage of shrapnel and heavy explosives. I hadn't seen Mac (also a member of the International News Service staff) since the day after he was married, when I bought a dinner at a restaurant which has since changed its name. For three days we had been too busy to talk. So we brought ourselves up to date on old friends and personal history and let the raiders raid. They did it only too well, as we learned next day when casualty announcements were permitted.  
"Some day when I learn enough about these things to understand, I'm going to be literally scared to death."

### SELF-DELIVERING PLANES.

(New York World)

According to Alan R. Hawley, president of the Aero Club of America, the project of a transatlantic flight by airplane has reached that point of development at which the only remaining issue is the choice of a machine for the trip.

Despite Mr. Hawley's assurance, the question of route and the matter of providing for emergencies over the long waterway are subjects still of lively debate which recall Ernest P. Goodrich's suggestions in The American Review of Reviews over a month ago.

Mr. Goodrich, who is a consulting engineer of this city, dealt with the idea of the self-delivery in Europe of aeroplanes made in America. His suggestion involves the use of a thousand long-distance air pilots; the fixing of such a route as, say, that from Newfoundland to the Azores to Portugal to France; the stationing along the line of patrol boats, wireless-signal boats, supply and repair boats, and auxiliary gas tanks and pontoons for the planes themselves.

This is a fascinating scheme in the contemplation. It suggests in a way the realization of Rudyard Kipling's wonderful dream of aerial transit recorded in "The Night Mail." That it would be a plan costly in the carrying out, Mr. Goodrich admits perforce. He argues, on the other hand, that it would accomplish a very large and practical economy in the saving of the enormous cargo space which would be required by flying machines on ships. It is also true that, with a reasonable proportion of successful flights, much time would be saved in the delivery of the planes.

### TRAINED NURSE ADVISES PEOPLE

"I was a great sufferer of stomach and liver trouble and cannot say enough in praise of Mayr's Wonderful Remedy. It has done so much for me and I am recommending it to other sufferers. I was a trained nurse in Marine and other hospitals years ago, therefore many come to me for advice. I certainly received great benefit from Mayr's Wonderful Remedy." It is simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. S. M. Thompson, in Albany; Owl Drug Co., in Decatur, and druggists everywhere.

**Wants a League

(International News Service)

Paris, July 13—While entirely in accord with President Wilson's plan for a league of nations, French statesmen today suggested a society of allied nations.

It is sufficiently powerful to survive the war; and although composed of only four states it comprises almost half of Europe. It is a real and terrible danger."

**There is no Substitute  
for Milk and Butter**

Milk is one of the most important food sources the human race possesses. For the proper nourishment of the child it is absolutely indispensable and its use should be kept up in the diet as long as possible. Not only does it contain all the essential food elements in the most available form for ready digestion, but the recent scientific discoveries show it to be especially rich in certain peculiar properties that alone render growth possible. This essential quality makes it also of special value in the sick room. In hospitals it has also been shown that the wounded recover more rapidly when they have milk.

For the purpose of stimulating growth, and especially in children, butter-fat and other constituents of milk have no substitutes. Therefore every parent owes to himself and to his family the duty of providing requisite amounts of milk, butter, cheese and other dairy products. During this last winter, when much agitation was had in some of the larger cities over the price of milk, which was advanced from 2 to 3c a quart by reason of the rapid rise in the cost of feed and labor, many families among the poor were found giving their children tea and coffee instead of milk. Such methods of feeding fail to nourish the child properly.

The widest possible publicity should be carried on through public channels to bring these essential facts to the attention of all mothers.

In spite of the shortage of milk in Germany, that country has at all hazards maintained the milk ration of the children and in the hospitals, even though to do so has meant that the adult population has had to forego largely its use. In a "safety first" health campaign it must be remembered that it should be "children first."—United States Food Administration.

### GLAD TO TESTIFY

Says Watoga Lady, "As To What Cardui Has Done For Me, So As To Help Others."

Watoga, W. Va.—Mrs. S. W. Gladwell, of this town, says: "When about 15 years of age, I suffered greatly . . . Sometimes would go a month or two, and I had terrible headache, backache, and bearing-down pains, and would just drag and had no appetite. Then . . . it would last . . . two weeks, and was so weakening, and my health was awful.

My mother bought me a bottle of Cardui, and I began to improve after taking the first bottle, so kept it up till I took three . . . I gained, and was well and strong, and I owe it all to Cardui.

I am married now and have 3 children . . . Have never had to have a doctor for female trouble, and just resort to Cardui if I need a tonic. I am glad to testify to what it has done for me, so as to help others."

If you are nervous or weak, have headaches, backaches, or any of the other ailments so common to women, why not give Cardui a trial? Recommended by many physicians. In use over 40 years. Begin taking Cardui today. It may be the very medicine you need.

## Food For the Liver

Have you ever thought of medicine as food—the same as meat or potatoes? Yet that is what it really is. "Sodium Bi-carbonate" sounds rather threatening as a medicine, yet all housewives use baking soda in their cooking every day.

An eminent Specialist has said that every organ of the body has the power to take that nourishment which makes it grow and remain healthy. Thus there are certain herbs, fruits and plants which the liver shows a fondness for. They stimulate the liver just as food strengthens and stimulates the whole body. These we call liver medicines or liver tonics.

By investigation it has been found that several of these vegetable products, combined with Pepsin, form an admirable liver food. They have accordingly been prepared in pleasing, tasty form, and are sold under the name "333 Liver Tonic." They are powerful enough, but gentle in action, and are never habit forming. Many people have been delighted to learn that 333 Liver Tonic provides a safe and pleasant substitute for calomel, salts, castor oil and other drastic and disagreeable purgatives. Children take it with pleasure.

Dillehay Brothers and other good druggists sell 333 Liver Tonic in big fifty-cent packages. You will find it just what you need for constipation or sluggish liver. Try it on their guarantee of satisfaction or money refunded. Do not accept a substitute. All good drug stores are glad to sell and recommend 333 Liver Tonic.

The Decatur Hosiery Mills are now a permanently established institution which have the best interests of the Twin Cities at heart. We pay the highest piece work prices, some of our girls making from \$10 to \$15 per week. We will have openings from time to time for bright young ladies who are anxious to become skilled in a good paying and high-class line of work.

### NEW CALOMEL IS

**MOST DELIGHTFUL**

NOT THE SLIGHTEST NAUSEA,  
GRIPING OR DANGER—NEW  
VARIETY CALLED CALOTABS

Every doctor regards calomel as the best and by far the most useful of all medicines. Now that its unpleasant and dangerous qualities have been entirely removed, the new calomel known as "Calotabs" is destined to become the most popular. Its effects are delightful. One Calotab at bedtime, with a swallow of water—that's all. No nausea, no griping nor unpleasantness. You wake up in the morning feeling fine, your liver cleansed, your system purified and with a hearty appetite for breakfast. Eat what you please, go where you please, any kind of weather. No restriction of habit or diet.

Calotabs are sold only in original sealed packages, price 35 cents. Your druggist recommends and guarantees Calotabs. Money back if you are not delighted. (Adv.)
